## ABSTRACT

This report presents the current Advanced Placement policies of 51 Missouri public and private, 2- and 4-year colleges and universities. It is noted that students taking Advanced Placement courses develop high academic expectations and increased satisfaction from challenging coursework. In addition, the completion of Advanced Placement courses inspires a sense of achievement and sets a challenging standard for excellence in teaching and learning in the high schools where they are offered. These courses are one way for strengthening students' preparation for college as well as for the demands placed upon high school graduates who enter the work force directly out of high school. The report presents each school's specific Advanced Placement Course policy, the scores required, the hours granted, and the institutional courses satisfied by advanced placement. Also included are a contact name and phone number for each school. (GLR)

## A PLACE FOR ADVANCED PLACEMENT COURSES IN MISSOURI'S COLLEGES AND UNIVERSITIES

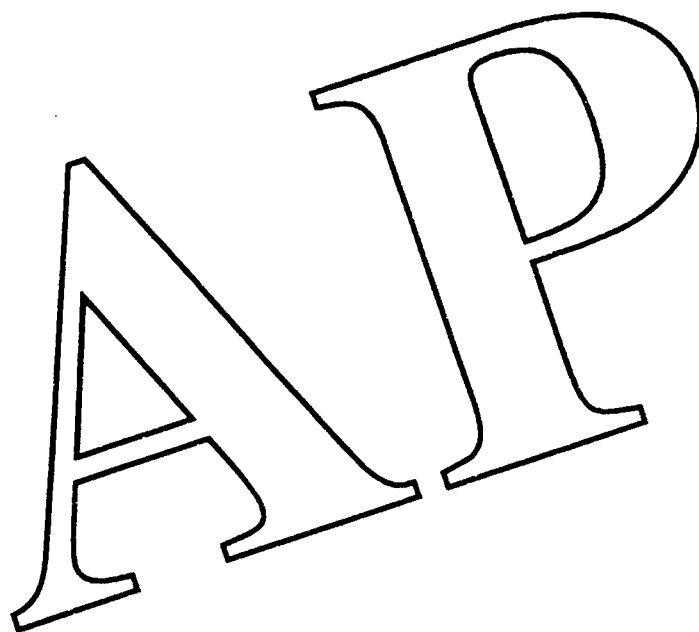

### PREFACE

---

The Coordinating Board for Higher Education encourages Missouri's high school students to review the information presented in this brochure and to accept the challenge of participating in the Advanced Placement program while in high school. Students who take Advanced Placement courses develop high academic expectations and increased satisfaction from challenging coursework. The completion of Advanced Placement courses inspires a sense of achievement which serves students well in college and at work. Finally, Advanced Placement courses set a challenging standard for excellence in teaching and learning in the high schools where they are offered. As a consequence, the Coordinating Board for Higher Education is promoting Advanced Placement courses in high school as one means for strengthening students' preparation for college as well as for the demands placed upon high school graduates who enter the work force directly out of high school.

All Missouri colleges and universities were surveyed and given the opportunity to have their current Advanced Placement policies published in this brochure. A draft of the brochure was reviewed by campus officials and, where appropriate, updated and corrected to reflect the most current institutional policies regarding Advanced Placement. **While every effort has been made to provide in this brochure the most current information, it is always a good practice to inquire with the institution about any questions which may arise upon review of the Advanced Placement policies contained in this report.**

The Coordinating Board for Higher Education expresses its sincere appreciation to all the campus officials who assisted in the development of this brochure. It is the Board's sincere desire that this brochure will be of assistance to students, parents, high school counselors, and those Advanced Placement course teachers who are dedicated to preparing Missouri's high school students for the challenges of today as well as for those of tomorrow.

# COTTEY

---

**Advanced Placement  
Course**

**Score  
Required**

**Hours  
Granted**

**Institutional Courses  
Satisfied**

Cotney College accepts credit completed through the Advanced Placement Program administered by the College Entrance Examination Board. Scores of 3 or 4 on the English test may be accepted for three credit hours and a score of 5 may be accepted for six credit hours in English Composition. In all other disciplines the student who earns a score of 3, 4 or 5 may be granted the number of hours of credit equivalent to the amount of college course work covered by that advanced placement examination.

**Advanced Placement  
Course**

**Score  
Required**

**Hours  
Granted**

**Institutional Courses  
Satisfied**

Park College does not have specific guidelines for acceptance of advanced placement scores. Park College will grant advanced placement and/or credit to high school graduates who proved their competence by their score on the ADVANCED PLACEMENT TEST administered by the College Entrance Examination Board. The awarding of credit, the number of credit hours awarded, and the scores required for the awarding of credit are determined by the appropriate academic department.
